FALL 2016 Meeting Highlights:

SAC held meetings in October, November and December to continue to build upon work from earlier in the year and plan for the birthday celebration. You may recall in past SAC News that one of our goals is for the school *to realize its vision and fulfill its mission as a Catholic school within the Archdiocese of Louisville*. To assist, SAC began working with the Marketing and Enrollment Committee, led by Chair Erin Farrington. This committee has worked diligently with SAC and many other school and parish committees and staff members over the past few months to ensure proper and consistent branding of these statements as well as use of our school logos. This sort of collaboration allows the school to share the news of the good work that happens every day on our campus with our current school families/ parishioners and the community at large in a highly recognizable fashion. With consistency in our branding, a fabulous new tag line (*Small is big!*) and plans to increase our marketing in the community, we're building on the growing awareness we're gaining. It takes many voices to spread the word, and you can help by sharing news about our upcoming **Open House (Wednesday 2/1/17 from 9-11am & 5:30-7:30pm)** during Catholic Schools Week; and inviting alums, current school families and parishioners from St. Leonard and St. Francis of Rome to attend our **"Cheers to 60 Years!" school birthday celebration after mass on February 4th & 5th**. All who attend will surely have a fantastic experience when they see how our small school is still providing a vibrant future for all who pass through our halls.

Cheers to 60 Years!

Hoping everyone had a restful and blessed Christmas season! As we get ready to celebrate our school's 60th Birthday, the St. Leonard SAC (School Advisory Council) has been meeting regularly and working collaboratively with many school and parish committees to ensure we have another great 60 years! Join SAC and Parish Life after both masses the weekend of February 4th & 5th for our birthday celebration! Please share with all SLS alums and come join the fun!
